SIMPLE EMDR

The Simple EMDR set includes the Master Controller, 2 tactile tappers, a light bar, and our universal lightbar desk mount. Please note that headphones are not included. Alternatively, you can choose to use a more traditional tripod.

Master Controller

Tappers

Optional Accessories

Our emphasis lies on people rather than technology, ensuring that our products are suitable, dependable, and non-intrusive. Simple EMDR, crafted after extensive consultations with therapists and trainers, enables you to focus on your patients. 

ALSO AVAILABLE ON LINE

1. Portable Battery Pack

2. Simple EMDR Carry Case

3. Tripod for Lightbar

Why?

No connectivity issues, no need for app downloads, and no complicated menus to navigate.

All the settings and controls you require are readily available. Simply use the Master Controller to select the number of sets, adjust tapper amplitude, lightbar color, length, and speed, trigger distract or flash modes, and start/stop sets effortlessly.

You can also modify the phase to desynchronize the tappers from the lightbar, allowing for further customization.
